WWII British Heavy Assault Tank A39 Tortoise

E35-157

Russian BRDM-2 (Early version)

La finezza dei vari dettagli è ottima, i particolari in resina non presentano difetti.

Ormai la ET ci ha abituati ad un livello alto dei suoi prodotti.

Spesso nei set oltre alle fotoincisioni sono presenti parti in metallo come catene, cavi di traino e parti in resina.

Forse per questo sono i più completi che si trovano sul mercato.

Costantino Sanna
