TENSOCROM is a solution of pigments and dyes in a tensioactive base that lets the product flow into crevices and recesses and lays easily over surfaces.

When a paint marked "2 Coat" is used, apply Mr. COLOR 155 Super Clear or 184 Super Clear II by an airbrush or double-coat B-513 Mr. Super Clear Gloss after the paint has become dry. This will produce a deep, excellent finish that sparkles under the light.
